CHICAGO July 28.—The tide turned in the wheat market to-day following the steady decline of the last week or more, and prices advanced sharply, final quotations showing net gains of 1½ 92%C. Corn also closed strong, but oats, with the exception of the July delivery, were weak. Provisions broke severely, and at the close prices were from 32½C. lower than the previous close.  The bulge in wheat occurred during the final half of the day and at the top prices were 25½Cs. above the low mark of the session. The market opened week a decilines of ½C. to ½ 9½C. July being as \$1.00½, and September at \$1.07½, to \$1.08½, the heaviness at they start was due to weak eables, a continued heavy movement of new wheat in this country and the reported change of heart of the former bull leader, who was credited with liberal sales on the previous day. Vigorous suppoit by the leading cash interest, however, soon causa a much studier feeling. Additional black rust reports from the Northwest, unsettled weather in the winter wheat belt and the discovery that more than 150 beatloads of wheat had been taken for export to-day, including about 30 boatloads "worked" lats yesterday, stampeded shorts during the flaour. PUT NAME TO NOTES, BUT GOT NO MONEY

ASHEVILLE, N. C., July 28.—C. B. Leonard, formerly of this city, but now living at Chattanooga, was the star witness of the Breese bank cass to-day. He stated that in 1891 Major Breese wanted to borrow gome money from his (Breese's) bank, and not being able to do it under his own name, asked Leonard if he would not lend the use of his name on notes. Leonard said that he signed seven blank notes for amounts ranging from \$500 to \$500. He paid nothing on the notes nor was he asked to pay anything, he said, until after the bank failed. At Major Breese's request, Leonard said, he had secured other people of no means to sign notes which he delivered in blank to Breese.
